

# BRIGHT THINKING

smartglass

**SMARTGLASS** ILLUMINATES  
ENVIRONMENTS, CREATING  
MULTI-FUNCTIONAL SPACES  
THAT ADAPT AND RESPOND  
TO THE NEEDS OF USERS AT  
THE FLICK OF A SWITCH...

Whether translucent, opaque, curved or tinted, Smartglass redefines environments in an instant, creating multi-functional spaces that adapt and respond to the needs of users.

Enhancing and informing the human experience of architecture is a key benefit of these pioneering products and a key element of our ethos.

There's a dynamism that characterises our approach to product development and it's this that sees us consistently strive to expand the applications and specifications of Smartglass.

Each unique and perfectly crafted piece represents the culmination of a concept and the realisation of a combined imagination. Our products are second to none, but it's how we get there that sets us apart.

CLIENT  
MICROSOFT

ARCHITECTS  
3G-OFFICE &  
PRINGLE BRANDON

LOCATION  
LISBON, PORTUGAL

FOR US, DESIGN CHALLENGES  
ARE CHANCES TO ADAPT, INNOVATE  
AND CREATE ENVIRONMENTS  
THAT SURPRISE AND INSPIRE, BOTH  
FUNCTIONALLY AND AESTHETICALLY.

As the hub of Microsoft's activity in Portugal,  
this is a space where projects come to fruition  
and new initiatives spark into life.

MANAMA, BAHRAIN

EACH PANEL OF SMARTGLASS  
IS BESPOKE, SO WHATEVER  
YOUR DESIGN AND SPECIFICATION  
WE MANUFACTURE TO ORDER,  
PROVIDING THE PERFECT DESIGN  
SOLUTION FOR YOUR PROJECT.

An oasis of 5 star opulence in the metropolis of Manama, the imposing towers of Grand and Ixir house 460 luxuriously appointed rooms and suites which epitomise the prestige and exclusivity of the Kempinski brand.

SMARTGLASS CREATES  
AN EFFICIENT, EASY TO CLEAN  
PARTITIONING SYSTEM THAT  
FACILITATES BOTH PRIVACY  
AND THE HIGHEST STANDARDS  
OF HEALTH AND SAFETY.

A world class, state of the art high dependency ICU incorporating the most technologically advanced patient monitoring systems available, make this a model of excellence within the NHS.

THE SPIRIT OF INNOVATION AT  
SMARTGLASS DOESN'T BEGIN  
AND END WITH A THEORY,  
A PRODUCT OR AN APPROACH.  
IT PERMEATES THROUGH EVERY  
ASPECT OF WHAT WE DO.

A shimmering sculpture of glass and steel,  
the elegant arch of the East Wintergarden  
provides a perfect counterpoint to the linear  
landscape of Canary Wharf.

OUR VISION FOR THE  
FUTURE IS DRIVEN BY OUR  
COMMITMENT TO DEVELOPING  
INNOVATIVE PRODUCTS.

**This forward thinking approach serves to inspire and respond to the ambition and imagination of our customers.**

By consistently expanding our knowledge and experience we've honed a critical ability to integrate information from research and development during the design and implementation phases of projects.

We actively seek out new opportunities to test our products and the scope of their application. We don't shy away from challenges; we embrace them, confident of delivering design solutions that exceed expectations.

**As visionaries, our gaze stretches  
beyond the immediate horizon.**

Smartglass is currently manipulating light  
and enhancing the build environment in  
over 35 countries across 6 continents.

We deliver to any destination worldwide  
and our offices in London and Riyadh  
provide hubs for our activities globally.
