# Function & Features Overview

Home

Adjust

Schedule

Away

Air Quality

The **home screen** displays the current temperature, the current system mode, and icons leading to each of the top level screens.

The **adjust screen** displays the current temperature on the left and set-points on the right. Change the set-points by dragging them or by turning the dial.

The **schedule screen** displays upcoming set-point changes and scheduled times. It also offers access to edit mode, where you can adjust the schedule.

The **away screen** displays energy saving set-points. Energy saving can be invoked manually or automatically when the mobile app recognizes everyone is away.

The **air quality screen\*** displays indoor air quality levels when a Daikin *One* home air monitor is connected. Outdoor air quality and weather will be displayed when connected to the internet and thermostat added in the mobile app under home location.

\*Actual screen may vary for different indoor unit models. The Daikin *One* home air monitor only works with ducted units.

Our continuing commitment to quality products may mean a change in specifications without notice.
